**PART #3: ADDITIONAL
INFORMATION****DELIVERY AND RETURNS****Local Store and Mobile Units**

It is the Vendors responsibility, to sell only the type of shoes or boots authorized by the user department for its employees on the County voucher or purchase order. On occasion, footwear may not be in the vendor's inventory. In those instances, the vendor shall deliver the ordered footwear within thirty calendar days.

INTERNET SALES

Vendor shall have a site restricted for County use only, this site will show shoes/boots on contract along with the County approved MSRP (from which discounts will be taken). The department will issue a voucher/purchase order to the employee who will scan it into their order as authorization for the purchase of the shoes.

Delivery must be made within ten calendar days of the order being placed. Delivery and return charges are not acceptable. Successful internet bidder(s) must provide a pre-paid return label with all deliveries. Deliveries must be made to County addresses, no home deliveries allowed.

EMPLOYEE PAYMENT

At the discretion of the user department the employee may be authorized to pay the difference between the amount authorized in the voucher/purchase order and the discounted price of the shoe, this payment may be made via cash, check or the employee's credit card. User

REBATES AND SPECIAL PROMOTIONS

All rebates and special promotions offered by a manufacturer during the term of the contract shall be passed on by the vendor(s) to the County

ADDITIONAL MANUFACTURERS MAY BE ADDED

Although this contract identifies specific brands of shoes and boots to be purchased, it is hereby understood and agreed that additional brands may be added to this contract at the option of the County. A maximum of four vendors per brand will be allowed.

SPECIAL SIZES

Shoes and boots shall be made available in sizes ranging from 7 through 13, and widths of D, E, EE, EEE (men's) and sizes 6 through 11, medium, and extra wide (women's), where applicable.

Charges for special sizes other than those shown above are shown on page 4 of 5 and shall be added to the discounted price of the largest sized shoe/boot in the MSRP for the brand shoe required.

COMPUTATION OF PREFERENCES

NECESSARY TO DETERMINE WHICH VENDOR TO PURCHASE FROM

To determine which vendor to use in the following scenario

Employee's supervisor determines that the employee requires Nautilus style #1710 shoe. The Manufacturers Suggested Retail Price (MSRP) for Nautilus shows a price of \$85.00.

Looking at the vendor matrix it shows there are 3 vendors authorized to sell Nautilus;

Global at 20% off MSRP, Micro/Small Business Enterprise (SBE), locally headquartered and local

International at 25% off MSRP, who is locally headquartered and local

Safety Shoe at 23% off MSRP who is local

All three vendors claimed local preference, for this computation those preferences cancel out.

First the Micro/SBE preference (10%) is applied, if this results in the Micro/SBE being the lowest evaluated price then award (buy the shoe) from that vendor.

If the Micro/SBE is not the lowest, then apply the Locally Headquartered (15%) this application will lead you to a Best and Final Offer (BAFO). In this example the Micro/SBE preference decided the issue.

	Global	International	Safety Shoe
MSRP	\$85.00	\$85.00	\$85.00
Percent Discount	\$17.00 (20% of \$85)	\$21.25 (25% of \$85)	\$19.55 (23% of \$85)
	_____	_____	_____
Discounted Price	\$68.00	\$63.75	\$65.45
Micro Pref. 10%	\$6.80	_____	_____
	_____	_____	_____
Evaluation	\$61.20	\$63.75	\$65.45

The employee would be advised to buy their shoes at Global and given a voucher for \$68.00

If in the example above Global Trading were not a SBE

	(Locally HQ'ed) Global	(Locally HQ'ed) International	(Local) Safety Shoe
MSRP	\$85.00	\$85.00	\$85.00
Percent Discount	\$17.00 (20% of \$85) <hr/>	\$21.25 (25% of \$85) <hr/>	\$19.55 (23% of \$85) <hr/>
Discounted Price	\$68.00	\$63.75	\$65.45

Award to International since they are the lowest local and locally headquartered vendor.

A Best and Final Offer (BAFO) would be necessary if Safety Shoe (Local, not Locally Headquartered) were the lowest 'bidder' and either of the two Local and Locally Headquartered companies were within 5% of Safety Shoe price.
